ADVIESGROEP

Why Van Bruggen Adviesgroep?

Van Bruggen Adviesgroep has been active as a financial services provider since 1973. We are happy to use our extensive knowledge and experience to serve you. You are assured of independent, transparent and expert advice. Whether this concerns your mortgage, insurance, loans or other financial questions. For us you are central and not the lenders and insurers with whom we work. Moreover, we compare virtually all lenders and insurance companies. This is in contrast to your bank, which only looks at its own products.

Where do I start?

Getting on the Dutch property ladder is much easier if you know what help is available and where to find a mortgage. At Van Bruggen Adviesgroep Terneuzen we can provide you with all you need to know about how to buy your first home in the Netherlands.

- The necessary amount you have to save when buying your house.
- Make sure you can afford a mortgage on your current income.
- Find a property that suits your needs.
- Decide what type of mortgage is right for you.

Milia de Nijs
your financial adviser
